

Migration directional sensitivity: dropping the 601/602 national-identity codes

Per-(party, LP) within-Migration JSD (restrictive vs liberal). x: baseline 601+608 / 602+607. y: 607/608 only

Points off the 45° line = the national-way-of-life codes (601/602) materially move the directional Migration measure
