

H2a — Topic-level salience divergence

Mean per-bucket contribution to JSD across cells; dots = individual (party, LP) cells. Procedural and institutional language inflates Democracy & Political System on the speech side relative to manifestos (genre artefact, see Mlv2 §6.3).

The Democracy & Political System bar reflects parliamentary procedural-rhetorical phrasing absent from manifestos rather than substantive divergence on democratic-political topics. See Mlv2 §6.4 for a tightened pre-filter robustness check.
